

## Edge welded bellow data sheet

Part name: KF40EWB-80 Part number: 411578

date: 01.11.2016

| Geometric dimensions   |      |     | Technical specifications   |            |                    |
|------------------------|------|-----|--|------------|--------------------|
| Inner diameter         | [mm] | 39  | Vacuum side  | Inside     |                    |
| Outer diameter         | [mm] | 59  | Helium leak rate   | [mbar·l/s] | 1·10 <sup>-9</sup> |
| Assembly length L min  | [mm] | 50  | Operating temperature  | [°C]       | 20                 |
| Assembly length L max  | [mm] | 130 | Bakeout temperature  | [°C]       | 80                 |
| Axial stroke           | [mm] | 80  | Total weight   | [g]        | 127                |
| Number of convolutions |      | 40  | Spring constant axial  | [N/mm]     | 1.53               |
| End piece length L1    | [mm] | 15  | Tensile force axial*   | [N]        | 31                 |
| End piece length L2    | [mm] | 15  | Resulting force axial**  | [N]        | 227                |
| Materials              |      |     | * required force to pull to maximum assembly length  |            |                    |
| bellow                 | 316L |     | ** required force to hold on maximum assembly length during evacuation of the inner volume |            |                    |
| End pieces/ Flanges    | 316L |     | Number of cycles   | 10′000     |                    |

## Important note:

Number of cycles is describing the maximum number of strokes during the life time. Improper installation or use of the bellows out of specifications result in a reduction of life time. Please avoid especially any torsional load and pollution with particles
